## Solutions Atlantic Provides Coverage for Over 75 Countries

*Regulatory Reporting System (“RRS”) expands country coverage*

Boston, MA, 15 January 2014 – Today, Solutions Atlantic announced that its [Regulatory Reporting System](#) (“RRS”) now supports the shareholding disclosure requirements in 79 countries. This expansion incorporates the country coverage in [Rulefinder Shareholding Disclosure](#), the regulatory intelligence offering from Derivative Services LLP.

“As instruments and investment strategies grow more complex, the burden of substantial shareholding reporting has grown exponentially for compliance professionals. As a result, there is greater interest in RRS and its ability to automate the disclosure reporting workflow. Expanding the country coverage ensures that our customers can confidently reduce this risk regardless of instrument type or country held,” said Mitchell Greess, CEO of Solutions Atlantic.

Last year, Solutions Atlantic chose Rulefinder Shareholding Disclosure to be the underlying source of regulatory intelligence for [RRS Rules Library](#). This market leading source provides the subject matter experts at Solutions Atlantic with the basis of the regulatory requirements from which they can then interpret and code the necessary rules within the *Regulatory Reporting System*. Solutions Atlantic plans to continue its country expansion to address the ongoing needs of its customers.

*Solutions Atlantic is the market leading provider of large position disclosure solutions to the global financial services industry. For more than a decade, Solutions Atlantic has been at the forefront of global regulatory obligations as it pertains to large position and short selling disclosures. Solutions Atlantic is headquartered in Boston, MA.*
