Solutions Atlantic Starts 2016 With A Bang

New Client Chooses Regulatory Reporting System

Boston - 2 March 2016 – Leading the way for shareholding disclosure automation for more than a decade, [Solutions Atlantic](#) today announced, that it has signed a multi-year deal with a large investment management firm with nearly \$400B in AUM for its [Regulatory Reporting System \(RRS\)](#).

Shareholding disclosure obligations can present challenges for even the most informed and resourced compliance department. These challenges grow each time the firm invests in a new jurisdiction; for large institutions, monitoring the changing regulations, adapting manual processes and systems, and meeting regulatory deadlines can become overwhelming. At some point throwing additional resources at the problem just isn't enough.

After conducting a thorough vendor analysis, the client chose RRS to effectively and reliably manage its shareholding disclosure obligations. The client cited Solutions Atlantic's extensive expertise, market leadership and product stability as determining factors in their selection of RRS. "This is how we like to start the year off," said Mitchell Greess, CEO of Solutions Atlantic. "We're seeing an uptick in interest in shareholding disclosure automation which we believe is due to the amended Transparency Directive and the added complications it brings to buy-side firms. We believe we are uniquely suited to solve these complex issues for investment management institutions."

The Regulatory Reporting System manages the complete shareholding disclosure process from regulatory monitoring to disclosure submission. It is the most reliable and secure solution on the market today, covering over 85 jurisdictions for large position, short position, takeovers, foreign investment and sensitive sectors.

Solutions Atlantic is the market leading provider of shareholding disclosure solutions to the global financial services industry. For 15 years, its Regulatory Reporting System (RRS) has been at the forefront of global shareholding disclosure obligations and currently supports a client base having \$4 trillion in assets under management. With regulatory rules for over 85 jurisdictions, RRS leads the way in complete workflow automation including: monitoring, alerting and generating disclosure documents. Solutions Atlantic is headquartered in Boston, MA.
