Solutions Atlantic Wins Major Client

Regulatory Reporting System Selected

Boston - 9 April 2014 – [Solutions Atlantic](#), the market leader for global shareholding disclosure automation, today announced that a large investment management firm based in the U.S. with over \$750B AUM, has selected the [Regulatory Reporting System](#) to provide disclosure workflow management, monitoring and reporting.

After an extensive vendor review, the *Regulatory Reporting System (RRS)* was chosen by the client because of the significant time savings and the broader monitoring capabilities *RRS* brings to their shareholding disclosure process. In addition to the rich functionality that will enable the client to increase efficiencies in their workflow, the regulatory knowledge of the Solutions Atlantic team was cited as being exceptional and responsive.

“We’re excited about this win. It means that what we are doing at Solutions Atlantic and with *RRS* specifically is resonating with the market and the needs of customers,” said Mitchell Greess, CEO of Solutions Atlantic. “It’s important for us to provide our clients with a solution that addresses their needs now and as their business strategies change.”

During the client review process some insights to disclosure workflow raised areas of expansion for *RRS* and the system was easily enhanced to provide this new functionality even before the vendor review process was complete. It’s this kind of adaptability that the team at Solutions Atlantic prides itself on.

Solutions Atlantic is the market leading provider of large position disclosure solutions to the global financial services industry. For more than a decade, Solutions Atlantic has been at the forefront of global regulatory obligations as it pertains to large position and short selling disclosures. Solutions Atlantic is headquartered in Boston, MA.
